Course Overview

Surgical Extractions and Immediate implant Placement is one of the most common in office emergency same day treatments. As implants become more popular within the practices of general dentists, this is an increasingly popular procedure. This 2 day full scope course will cover every aspect of treatment for nonrestorable teeth. This course will be hosted by Dr. Aaron Pryor, DDS at his state of the art facility just 20 minutes East of the Nashville airport.

Course Objectives

- ✔ Discuss and review techniques and surgical procedures for extractions, bone preservation, surgical instruments, and immediate implant placement.
- ✔ Learn grafting techniques, surgical anatomy, flap design, suture materials, and design.
- ✔ Learn to achieve maximum bone preservation prior to implant placement, as well as possible complications clinicians run into.

Noris Medical Inc.
Nationally Approved PACE Program
Provider for FAGD/MAGD credit.
Approval does not imply acceptance by
any regulatory authority or AGD endorsermer
5/1/2021 to 4/30/2022.
Provider ID# 386493

Lecturer

DR. AARON PRYOR, DDS

Dr. Aaron Pryor is a native of Lebanon, Tennessee. He proudly serves Lebanon, Mt. Juliet, and Watertown, and Nashville Tennessee. Dr. Pryor is a graduate of Lebanon High School and Cumberland University. He graduated first in his class at Meharry Medical College, School of Dentistry. Upon graduating from dental school, Dr. Pryor served as a dentist in the United States Air Force where he earned more than 500 hours of continuing dental education. Dr. Pryor completed Advanced Education in General Dentistry at Eglin Air Force Base in 2002 where he was trained in all aspects of general dentistry and sedation techniques. He is currently using a CAD/CAM CEREC which allows him to provide patients with same day, comprehensive dentistry. He is a member of the AAID, Dental Organization for Conscious Sedation, AAFE, the Academy of General Dentistry (AGD), and ADA.
