Course Agenda

08:00-08:30	Gathering
08:30 - 09:00	Introductions & Course overview
09:30 - 10:15	Pertinent anatomy for the safe placement of pterygoid and zygomatic implants
09:00 - 09:45	Overview of surgical anatomy
09:45 - 10:30	Traditional Guided Surgery Vs Zygomatic Guided Surgery
10:30 - 11:00	Coffee break and snacks
11:00 - 12:00	Digital prosthetic planning: DICOM - STL file matching for a correct use of the guided surgery software
12:00 - 13:00	Use of the guided surgery software for an accurate zygomatic implant insertion
13:00 - 13:30	Lunch
13:30 – 15:30	Live Surgery
15:30 - 17:30	Hands-On session performed by participants on 3D models with EZgoma® Surgical Guides
17: 30 - 18:00	Q&A, course graduate

Course Overview

Participants will learn the steps to be followed to duly plan and perform an EZgoma® case with zygomatic & Pterygoid implants and successfully treat patients suffering from the severely atrophic jaw.

It will be explained how to import DICOM files into the guided surgery software and match them with STL files from diagnostic wax ups.

During the Hands-On session, participants will work on a real case 3D model. Under the monitoring of tutors, they will perform the step-by-step drilling protocol until the implant insertion, with the support of the customized EZgoma® guides throughout the process.

The course will include a Live Surgery demonstrations.

Course Objectives

- ✓ Overview of surgical anatomy
- ✓ Traditional Guided Surgery Vs Zygomatic Guided Surgery
- ✓ Digital prosthetic planning:
- ✓ DICOM – STL file matching for correct use of the guided surgery software
- ✓ Use of the guided surgery software for an accurate zygomatic implant insertion
- ✓ Hands-On session performed by participants on 3D models with EZgoma® surgical guides

Venue Address

Goldstein, Garber & Salama

600 Galleria Pkwy SE #800, Atlanta, GA 30339

Speaker

Prof. Francesco Zingari

DDS

Graduation in dentistry and prosthetics at Università degli studi di Milano.
Since 2005 freelancer of the maxillofacial unit at Istituto Ortopedico Galeazzi in Milan.
Adjunct professor of prosthetics on zygomatic implants at Università statale in Milan.
Adjunct professor of implantology at Università degli studi di Parma.
Speaker at the II degree post – graduation master in digital and guided surgery.
Speaker at training courses in advanced implantology and anatomical dissection.
Active member of the Digital Implant & Restorative Academy (Di&RA).
Author of national and international publications.

Speaker

Dr. Maurice Salama

DMD

Dr. Maurice A. Salama completed his undergraduate studies at the State University of New York at Binghamton in 1985, where he received his BS in Biology. Dr. Salama received his DMD from the University of Pennsylvania School of Dental Medicine, where he later received his dual specialty certification in Orthodontics and Periodontics, as well as his implant training at the Branemark Center at Penn. Dr. Salama is currently on the faculty of the Medical College of Georgia as a Clinical Assistant Professor of Periodontics. Dr. Salama is a permanent member of the Scientific Committee of the world's leading online Dental Education Website DENTALXP.com He is also a member of the Team Atlanta Dental Practice which is a multidisciplinary practice world-renowned for its clinical research in reconstructive and esthetic dentistry.

Speaker

Dr. Marko Tadros

DMD

Dr. Tadros obtained his Doctorate in Medical Dentistry and completed his residency in Prosthodontics at Augusta University, Georgia, USA. Upon graduation, he received "Best of the Best in Prosthodontics" award and "1st place" in the esthetic contest at the "Digital Smile Design Miami Super Week" held by Dr. Christian Coachman in 2014. During his residency at Ronald Goldstein Center for Esthetic and Implant

Dentistry directed by world renown and father of modern esthetic dentistry, Dr. Gerard Chiche. Dr. Tadros developed a special interest in comprehensive full mouth rehabilitations, esthetic and Implant dentistry, computerized implant guided surgery, 3D-printing, in-office aligners and digital dentistry. He developed many digital workflows that he now uses in his day to day practice at Goldstein, Garber, and Salama Private practice allowing him to achieve extreme efficiency. He has several publications including "A Blended, Novel Team Approach in Academic Esthetic Dentistry", in the Journal of Cosmetic Dentistry. Furthermore, he has lectured about esthetic dentistry, Digital Smile Design, computer guided surgery, All-on-X A to Z, and in office 3D-printing of implant surgical guides both nationally and internationally. He is a well respected digital dentist as he continues to be all inclusive with all digital products and has helped many dentists transition their practice digitally. He has also established his 365 Digital Dentistry Mastership program and lab that helps many dentists around the globe.

Speaker

Dr. Abtin Shahriari

DMD, MPH

With over 15 years of experience, Dr. Abtin Shahriari has a plethora of experience in the field of oral maxillofacial surgery. After completing his undergraduate studies at Emory University, he chose to pursue a master's degree in epidemiology and international health at Emory University Rollins School of Public Health.

With his MPH degree, Dr. Shahriari worked in the international health arena through his work as an epidemiologist at the Center of Disease Control and Prevention and as a consultant for the World Health Organization working on the world-wide eradication of polio. He chose to pursue dentistry and completed his DMD degree at the University of Pennsylvania School of Dental Medicine, and later returned to his home state of Georgia to complete his oral maxillofacial surgery residency at Emory University. Dr. Abtin Shahriari is the medical director of the only oral surgery center in Georgia that is recognized by the Accreditation Association for Ambulatory Health Care. This prestigious accomplishment recognizes his offices for hospital-level safety for outpatient surgery and anesthesia. Dr. Abtin Shahriari is also a diplomat of the Board of Oral and Maxillofacial Surgery, and a clinical assistant professor of Oral Maxillofacial Surgery at Georgia Regents University. His accomplishments have been featured in the media, in many research publications, and in book chapters. He has built up impressive private practices, yet still finds time to donate his expertise through his non-profit Project Global Smile and select pro bono cases in his local community. In his free time, he enjoys spending time with his family exploring the outdoors, going on new adventures, practicing yoga, and enjoying new cuisines.
