

 December 2nd-3rd, 2023

 Berlin, Germany

2 DAYS ADVANCED LIVE SURGERY COURSE

TOTAL DIGITAL SOLUTION FOR TOTAL CARE

WHY NORIS GPS? EZGUIDE™ AND EZGOMA®

Theory, Planning & Live Patient Surgery

Prof. Francesco Zingari

Dr. Dr. Pawel Schwartzmann

For more information and registration, please contact: Noris Medical
Elena Schneider | E-mail: schneider@norismedical.com | Tel. M +49 174-2471391

AGENDA

DAY ONE

December 2nd Saturday

08:00 - 08:30	Gathering
08:30 - 09:00	Introductions & Course overview
09:30 - 10:15	Pertinent anatomy for the safe placement of pterygoid and zygomatic implants
09:00 - 09:45	Overview of surgical anatomy
09:45 - 10:30	Traditional Guided Surgery Vs Zygomatic Guided Surgery
10:30 - 11:00	Coffee break and snacks
11:00 - 12:00	Digital prosthetic planning; DICOM - STL file matching for a correct use of the guided surgery software
12:00 - 13:00	Use of the guided surgery software for an accurate zygomatic, pterygoid and classic implants insertion
13:00 - 13:45	Lunch break
13:45 - 15:30	Hands-On session performed by participants on 3D models
15:30 - 16:00	Day two surgery planning and Q&A

DAY TWO

December 3rd Sunday

09:00 - 13:00	Live Surgery
12:30 - 13:30	Q&A, Course graduate

Course Overview

Digital dental solutions are growing in interest and popularity. Here, these two experienced clinicians and educators are collaborating on a fast-paced informative workshop for these case types.

Entry-level guided surgery cases are implied and will not be focused on.

Prof. Zingari's approach incorporates exquisite planning for the prosthetics as well as the surgical aspect. As a developer of EZGoma® for advanced atrophy cases involving zygomatic implants, Prof. Zingari will go through his step-by-step planning, creation, and execution of the case project.

In addition, Prof Zingari and Dr. Shwartzman will demonstrate case types of classic tuff implants with guided Pterygoid implants within the EZGuide™ protocol.

Final cases with their approaches will be shared with the participants.

It will be explained how to import DICOM files into the guided surgery software and match them with STL files from diagnostic wax ups.

During the Hands-On session, participants will work on a real case 3D model. Under the monitoring of tutors, they will perform the step-by-step drilling protocol until the implant insertion, with the support of the customized EZGuide™ or EZgoma® guides throughout the process.

The course will include a Live Surgery demonstration.

What will you learn?

- ✓ What are the advantages and limitations of a guided surgery approach?
- ✓ Digital prosthetic planning: DICOM – STL file matching for correct use of the guided surgery software
- ✓ What are the possible prosthetic pathways to achieve restoration in an immediate load situation?
- ✓ Identify critical anatomy for advanced implants-zygomatic and Pterygoid
- ✓ Complications avoided by careful planning and execution
- ✓ Hands-On session performed by participants on 3D models with a surgical guide.

Venue:

MKG Praxisklinik Berlin-Dahlem

Thielallee 14, 14195 Berlin

MKG-PRAXISKLINIK
BERLIN-DAHLEM

Cancellation Policy

We offer a flexible cancellation policy for our courses. If you need to cancel your registration, we ask that you do so at least one month before the scheduled course date to receive a 50% credit. If you cancel before the two-month deadline, we will provide a full credit. Unfortunately, we cannot offer any credit for cancellations made within one month of the course date, unless it is an individual case such as illness, which will be reviewed and decided by the regional manager. It is important to note that the credit for hotels is separate from the course cancellation policy. We highly recommend booking your hotel accommodations with a flexible cancellation option. This will provide you with the necessary flexibility in case of unforeseen circumstances that may require you to cancel or change your hotel reservation. For doctors who have purchased implant packages, we offer credit for product purchases only. This credit is not transferable to other products or services. If you have any questions or concerns regarding your implant package credit, please contact our customer service team for assistance.

Speaker

Prof. Francesco Zingari

Prof. Zingari graduated in dentistry and prosthetics at Università degli studi di Milano. Since 2005 he is a freelancer of the maxillofacial unit at Istituto Ortopedico Galeazzi in Milan and adjunct professor of prosthetics on zygomatic implants at Università statale in Milan as well as adjunct professor of implantology at Università degli studi di Parma.

Prof. Zingari is an adjunct speaker at the II degree post-graduation master in digital & guided surgery and training courses in advanced implantology and anatomical dissection. He is an active member of the Digital Implant & Restorative Academy (Di&RA) & an author of national and international publications.

Speaker

Dr. Dr. Pawel Schwartzman

Dr. Dr. Pawel Schwartzmann, founder and head of the MKG practice clinic in Berlin-Dahlem, completed his training at the internationally renowned university clinics in Zurich and Basel. These high quality institutions set new standards in patient care. Thanks to the expertise of your maxillofacial surgeon and the ideal infrastructural possibilities in the Dahlem maxillofacial practice clinic, we are able to cover the entire spectrum of oral and maxillofacial surgery and to carry out even the most complex interventions with the greatest possible safety.
