Morning Live Surgeries and Course Summary

Dinner

THURSDAY

Departure

Course Description

The goal of this course is to provide the students with the necessary skill to perform surgeries for fixing zygomatic and pterygoid implants, thus allowing the rehabilitation of patients with severe maxillary atrophy, without the need for bone grafts. Thereby reducing morbidity and treatment period with predictability. Each Participant will perform 4-5 surgeries, 4-6 Zygoma and 2-3 Pterygoid Procedures.

Course Format

✓ 8 Hours of Instructional Material

- Review diagnosis of the severely resorbed maxilla
- Rational for stem cells to achieve bone graft success
- Hands-on workshop (on take-home anatomic models)

✓ 3 Full Days of Surgical Experience

- Zygomatic implants
- Pterygoid implants

What you will learn

- ✓ • How to identify the correct treatment plan .
- Perform a variety of different surgical approaches.
- How to do the Zygomatic implant positioning .
- Perform Pterygoid Implants.
- A Variety of mucoperiosteal flap for Zygoma exposure.

Important info about date changes or location

These courses are complex to operate, and real patients involved, and therefore sometimes there may be changes. The surgeries are performed on live patients and sometimes there are cancellations or urgent medical problems and therefore sometimes we have to change the location of the course or the dates. We are obligated to offer an alternative that you will be able to use up to one year.

Speaker

PROF. DR. ALEXANDER D'ALVIA SALVONI

DDS, MSCD, PHD

Dr. Alexander Salvoni studied Dentistry at Methodist University of Sao Paulo and Oral Pathology at University of Sao Paulo. He is professor at Paulista Association of Dental Surgeons and is a specialist in implantology. Dr. Salvoni dedicates his career to teaching the new generation of Implantologists. He is an internationally recognized expert on the zygomatic technique having placed more than 1000 zygomatic implants. He is a coordinator of post-graduate education in Sao Paulo, Brazil and clinicians from all around the world come to his clinic to learn and practice this technique. Dr. Salvoni is a dedicated educator always searching for the best techniques to teach his students and to treat his patients.

Cancellation Policy

We offer a flexible cancellation policy for our courses.

If you need to cancel your registration, we ask that you do so at least two months before the scheduled course date to receive a 50% credit.

If you cancel before the two-month deadline, we will provide a full credit.

Unfortunately, we cannot offer any credit for cancellations made within two months of the course date, unless it is an individual case such as illness, which will be reviewed and decided by the regional manager. For doctors who have purchased implant packages, we offer credit for product purchases only. This credit is not transferable to other products or services. But you will be able to receive a credit to use for another future course.

If you have any questions or concerns regarding your implant package credit, please contact our customer service team for assistance.
