## *All-on-X and Immediate Load with Conventional and Extramaxillary Techniques Full Arch Rehabilitation*

### Overview

Join us for a 3 hour lecture on Full Arch Rehabilitation with Noris Medical Tuff and Pterygoid Implants, led by Dr. Rambod Abedini, a renowned Oral and Maxillofacial Surgeon. Discover the All-on-X concept, delve into Dr. Abedini's patient selection criteria, and explore surgical techniques for optimal outcomes. Emphasis on the restorative phase will highlight prosthetic rehabilitation using Noris Medical Implants. Real-world cases will be analyzed, providing practical insights. This educational event aims to empower dental professionals with actionable knowledge for successful Full Arch Rehabilitation, concluding with an interactive Q&A session.

Gain a deeper understanding of the All-on-X approach and practical implementation in your clinical practice.

### Objectives

- ✓ Understand the All-on-X concept and its clinical significance in Full Arch Rehabilitation.
- ✓ Gain insights into the features and advantages of Noris Medical Conventional and Pterygoid Implants.
- ✓ Learn Dr. Abedini's approach to case selection for All-on-X procedures.
- ✓ Acquire a step-by-step guide to the surgical procedures involved in Full Arch Rehabilitation using Noris Medical Implants.
- ✓ Explore restorative considerations and protocols for prosthetic rehabilitation with Noris Medical Implants.
- ✓ Analyze real-world clinical cases performed by Dr. Abedini, including challenges faced and lessons learned.
- ✓ Engage in a Q&A session to address specific queries and concerns.

#### Speaker

#### **Dr. Rambod Abedini DMD, OMS**

Dr. Rambod Abedini is a board-certified oral and maxillofacial surgeon who grew up in the Washington D.C. area. He is a graduate of The University of Maryland where he studied both Biology and History. He then earned his Doctorate of Dental Medicine degree with Honors from The University of Pennsylvania. He subsequently completed a General Practice residency at the Philadelphia Veterans Affairs Medical Center where he treated the medically complex and practiced in all fields of dentistry, focusing on the functional and aesthetic aspects of smile rehabilitation. After completing a General Practice Residency, he went on to complete a full-scope Oral and Maxillofacial Surgery Residency at Christiana Care Health System. His current practice interests include tissue engineering, soft and hard tissue augmentation and complex reconstructive surgeries.
